\*Tuition and fees are set each year by the UMass Board of Trustees. The fiscal year starts July 1.

\*\* The Curriculum and Service Fee for the College of Management allows the college to respond to the expanding enrollment demand for our degree programs with the additional sections and services students need. The fee will be used to add faculty; enhance program and student success advising, including programs to provide students with greater access to international exchange opportunities; support our accreditation requirements; access to software and tools that graduates will encounter in the work world, and the overall quality of the College's programs. The Curriculum and Service Fee enables the college to continue to provide significant value at a relatively affordable cost. The fee will be incorporated into the budget for students receiving financial aid or other financial support and reflected in student awards.

\*\*\* Student health is mandatory, if student cannot provide comparable coverage. Required for all international students.
