

## 3YD: Three Year Degree Program

The 3YD (Three Year Degree) program is for first time, full time freshman and is designed to guide your student through the requirements of the Management major in three years versus four. 3YD puts the existing degree requirements into a reformatted package coupled with additional support that will lead to an earlier graduation date and entry to the career world. As a part of the 3YD program your student will complete 17-20 credits per semester, have access to continual support and academic guidance from a dedicated academic advisor for all three years. The full degree pathway is outlined below showing how students will meet all requirements for the Management major in three years.

### 3YD Curriculum

**PRE ENTRY CREDITS:** If at least nine pre-entry credits are brought in, no summer coursework is required. If fewer than nine pre- entry credits have been earned, some summer coursework will be necessary, and determined individually for each student. It is highly recommended that this coursework, if necessary, be completed the summer between the first and second year.
