“Studying abroad has enabled me to explore the rich history of England, experience the European social culture, and meet interesting people from all over the world. I am confident that because of this study abroad experience, I will be more enlightened, insightful, and open-minded to more opportunities like this.”

“Studying abroad was the best decision I every made. Living in another country for four months gives you so many new experiences that you can’t get from reading a text book or being in a classroom. It made me want to see more of the world and changed me as a person.”
